In case there are any STUDEX® ear piercing products listed in this document, by ordering and purchasing these, you agree not to distribute or sell them directly to end users. Furthermore, if reselling these products to other businesses, you agree to inform those accordingly. Since safe ear piercing requires professional training, detailed instructions and expert knowledge as well as the use of the appropriate ear piercing system, including the cartridges with the ear piercers, these STUDEX products are not suitable for self-piercing by the end user. This does not apply to the sale of initial piercing products provided that a trained professional pierces the customer immediately after purchase (sale of goods on site).
